

ServMax® X-220B

Flagship Performance 2U Rackmount System

Features

- Dual Intel® Xeon® 6 SP/AP processors or Single Intel® Xeon® 6 SP processors
- Free-air and liquid cooling options for maximum performance and efficiency
- 32 DIMM (Dual Xeon SP), 24 DIMM (Dual Xeon AP), or 16 DIMM (Single Xeon SP) slots supporting DDR5-6400
- NVMe SSD support with up to 24 drives in 2U (Optional SAS and SATA configurations)
- Up to 3 PCIe 5.0 slots in 1U or 8 PCI-E 5.0 slots in 2U
- Up to 2 AIOM slots for flexible networking options
- Tool-less system for simplified maintenance

Applications

- Enterprise Server
- Cloud Computing
- Big Data Analytics
- Hyperconverged Storage
- AI Inference and Machine Learning
- Network Function Virtualization

Specifications	
CPU	• Dual Intel® Xeon® 6900-Series Processors
Liquid Cooling	• Direct-to-chip (optional)
Memory	• 24 DIMM slots, Up to DDR5-6400
Expansion	• Up to 8 PCIe 5.0 x8 or 4 PCIe 5.0 x16 FH/10.5”L
Storage	• 8 to 24 hot-swap 2.5” NVMe/SATA/SAS drive bays
Networking	• Via AIOM
Power Supplies	• Redundant Titanium level (96%) from 1600W to 2600W
Workloads	• High Performance Computing, AI Inference/Machine Learning, Data Analytics, Enterprise Server
